Notes

Byrd Accounting
Business Clients

As your operations proceed into the New Year, it is important that some recordkeeping is updated and filing deadlines are met.

Payroll...

At the beginning of each year you should have all your employees complete a new W-4 form. This link will take you to the IRS website to print all the forms you need. www.irs.gov

If you are using independent contractors, having them complete a new W-9 is also a good idea.

There is a federal requirement to have completed I-9 forms for all employees and subcontractors. A link to the form is: www.uscis.gov

All W-2 forms should be mailed out to your employees by January 31st. All 1099M forms should be mailed to your contract or commission people no later than January 31st. If we will be preparing those forms for you please get your monthly bookwork into our offices as soon as your bank statements arrive. If we are missing any social security numbers or addresses we will need them as well.

Annual review...

It is time to do your annual review on your inventory, bad debts, accounts receivable, accounts payables and notes payables. If you have inventory you should have taken it by January 1st of the New Year. We do not need a copy of your physical inventory just the total purchase value or manufactured value.

When reviewing your Accounts Receivable, look to see if any of the outstanding balances should be written off as bad debt. We will need a total value for your Accounts Receivable as of December 31st and any bad debt to be written off. Do not include Bad Debt amount in the Accounts Receivable amount.

Accounts Payable- are those people who you owe money to. Not the power, rent or water bill but vendors that provide product and parts that you resell.

Notes Payable- are loans like for a car, equipment or line of credit. If you created any new ones we require a copy of that paperwork from the lender. If you have any notes previously on the books we are looking for December 31st balances and most of them will also provide interest statements. If you do not recall receiving this information, then you can request it from the Note holder.

Credit Cards- if your company uses credit cards for purchases, we will need the January statement from the new year.

E-Commerce Statements

If you use any e-commerce services, please include the monthly, quarterly or annual statements.

You can provide log-in information so that we can download the reports.

Annual Clients

If you are a business client that brings your work in annually, please remember to include twelve months of bank statements, twelve months of credit card statements and any paperwork you received from the Internal Revenue Service or the State of Florida. The earlier your work gets here, the quicker we can get it out.

Monthly or Quarterly Client

If you are a client we see each month, the quicker we get the work the quicker we can get it processed so that your payroll returns and corporate tax return can get completed.

If you have any questions feel free to email our office at bookkeeping@byrdaccounting.biz.

THANK YOU
